Dear Representatives Mullin and Blumenauer:

The undersigned members of the Partnership to Amend 42 CFR Part 2 (Partnership) and additional stakeholder organizations applaud your leadership on the issue of substance use disorder privacy records. We strongly support the Overdose Prevention and Patient Safety (OPPS) Act, H.R. 6082, which will align 42 CFR Part 2 (Part 2) with the Health Insurance Portability and Accountability Act (HIPAA) for the purposes of health care treatment, payment, and operations (TPO). The Partnership is pleased that the OPPS Act was voted out of the Committee on Energy and Commerce with a bipartisan vote.

The Partnership is a coalition of more than 40 organizations representing stakeholders across the health care spectrum committed to aligning Part 2 with HIPAA to allow appropriate access to patient information that is essential for providing whole-person care.

We are pleased that the bill aligns Part 2 with HIPAA's consent requirements for the purposes of TPO, which will allow for the appropriate sharing of substance use disorder records, among covered entities, to ensure persons with opioid use disorder and other substance use disorders receive the integrated care they need. Additionally, as we do not want patients with substance use disorders to be made vulnerable as a result of seeking treatment for addiction, this legislation strengthens protections and limits the number of institutions that have access to patient records.

Thank you both for your leadership on this issue and we look forward to working with you on helping to address the opioid crisis by passing this important bipartisan legislation on the floor of the U.S. House of Representatives.

Sincerely,

**Partnership to Amend 42 CFR Part 2 Members**
